

Compliance Summary

Q-Clamp

1. Regulatory compliance statements

1a. Gluten

Gluten is not used in the raw material or manufacture of Q-Clamp. As such it would not be expected to be present in Q-Clamp or extracted solutions from Q-Clamp.

1b. Animal Derivative Content Free (ADCF)—Tallow/BSE/TSE

Watson-Marlow works closely with our raw materials suppliers to ensure traceability of our raw materials and production process. We can confirm that Q-Clamp and its raw materials are manufactured from ADCF components. As such Q-Clamp is considered Animal Derivative Content Free.

1c. Phthalates

Phthalates are not used in the raw material or manufacture of Q-Clamp. As such it would not be expected to be present in Q-Clamp or extracted solutions from Q-Clamp.

1d. Bisphenol A (BPA)

BPA is not use in the raw material or manufacture of Q-Clamp. As such it would not be expected to be present in Q-Clamp or extracted solutions from Q-Clamp.

1e. Latex

Latex is not used in the raw material or manufacture of Q-Clamp. This includes contact materials during the manufacturing process.

1f. Allergens

Q-Clamp does not contain allergens such as Milk, Eggs, Crustaceans, Wheat, Soy, Corn, Peanuts, Tree nuts (as defined by the FDA CFR 21.164.110). Q-Clamp does not come into contact with any allergens during the manufacturing process.

1g. Restriction of Hazardous Substances (RoHS) EU Directives 2002/95/EC

No hazardous substances as defined by the RoHS directive have been added in the manufacture or the raw materials of Q-Clamp.

1h. Registration, Evaluation, Authorisation of Chemicals Hazardous to Health (REACH)

Watson-Marlow's products comply with the REACH regulations. Furthermore no substances are intentionally released as a result of using our products for their intended purpose.

Q-Clamp does not contain any Substance of Very High Concern (SVHC) as established by the European Commission HA Candidate list posted in December 2012.
